

## Riverside Primary School Year 5 Homework Autumn 2

<p><u>Geography</u> Can you draw a plan from above of a room in your house or the classroom at school? This 'plan' would be like a map so you wouldn't draw table legs, just the rectangle table top. Or you could draw a map of a bigger area – your route to school maybe.</p> <input type="checkbox"/>	<p><u>English</u> Find words from a page of any reading book. Sort them into a table with column headings: Nouns, Verbs, Adjectives and Adverbs.</p> <input type="checkbox"/>	<p><u>DT</u> Find out something about electric vehicles. When were the first ones? How many electric and non-electric vehicles are there in the UK?</p> <input type="checkbox"/>
<p><u>Science</u> Research how some 'raw materials' are processed into new materials or objects. E.g. <i>How sand is turned into glass. How plastics are made from oil. How aluminium is made.</i></p> <input type="checkbox"/>	<p><u>Maths</u> Explain what multiples, factors, prime numbers and square numbers are. List in order (from the smallest) some examples of each. Describe your house number or car reg number or a footballer's squad number with reference to the above.</p> <input type="checkbox"/>	<p><u>Music</u> Find out the instruments that make up an orchestra. What would the smallest orchestra have to have? What's the most unusual member of some larger orchestras. Which part would you like to do?</p> <input type="checkbox"/>
<p><u>French</u> Write a simple conversation between two people using any of the French you have learnt in school. They could be in Paris as we will be learning about that city first.</p> <input type="checkbox"/>	<p><u>PE</u> Write out the rules for basketball as we have been practising in school. Include a labelled drawing of a basketball court.</p> <input type="checkbox"/>	<p><u>RE</u> What can you find out about synagogues? Draw, label and explain as best you can the significance of the different things.</p> <input type="checkbox"/>
